As its name suggests, CAD-KAS Flash-Creator provides you with an intuitive design environment to help you create Flash content and embed it into your website, without needing advanced Flash knowledge. Designed mostly for beginner users, the application features a simple and well-organized interface that enables you to easily access all the options. Whether you want to create a funny animation or a Flash movie, CAD-KAS Flash-Creator can help you achieve professional-looking results quickly. Text boxes, vector objects and picture files can be inserted into your project. Every aspect of these elements is customizable: you can change the text font, color, size, the vector type and color, as well as adjust the rotation angle and the transparency. Drag and drop is supported, so you can move objects around to set their start and end position by simply using your mouse. Pressing the 'Play' button opens the animation in your default web browser, thus you can preview the result anytime you want and make modifications, if necessary. If you want to create a Flash movie, all you have to do is configure a few settings, such as the dimensions (width and height), the frame rate and the background color. Other than that, it's just a matter of a button's push before your movie is ready and saved in SWF format. For your convenience, the source code you need to insert into the website is automatically generated, so you simply have to copy and paste it into your HTML code to have the movie displayed on the website. All things considered, CAD-KAS Flash-Creator is a simple, yet user-friendly tool that comes in handy if you want to quickly create Flash animations for your website, allowing you to deliver messages easier and catch the visitor's attention. CAD-KAS iDesign is the fastest and easiest solution to create web pages. All the tools you need are available from just one place: the toolbar. Most people spend their first few days learning to use iDesign. Even if you have used a web page editor before, learning how to use iDesign is a breeze. Just a couple of minutes to get you going and you can create web pages right away. • Simply type your text into the toolbar window or drag and drop elements from the toolbox. • Every element is customizable. You can change the text font, color, size, the vector type and color, as well as adjust the rotation angle and the transparency. • Drag and drop

What's New in the?

Preview the flash movie in your default web browser.

1) HONYUCAH, WASH. – A man was driving to a friend's house in the town of Honyucaah when he stopped to help someone who said she was lost. When he asked how he could help, she says he told her to "get [expletive] out of here," and then she was forced to park in the middle of the road to walk.

2) JACKSONVILLE, FLORIDA – Police issued a warning for a guy who hit an elderly man on his foot with a remote control. According to the police report, the accident happened on August 13, but the incident was only reported on August 18. The older man said the guy said, "watch me fart," and he farted at him. Then he ran away.

3) PORTLAND, OR. – An Oregon woman is facing accusations for giving her dog an overdose of antibiotics. The unnamed woman "gave the dog eight doses of one form of antibiotic and attempted to give the dog eight more doses of a different type of antibiotic without any success."

System Requirements:
