Abstract The book . mechanical engineering handbook by sadhu singh pdf free download download online mechanical engineering handbook by sadhu singh. Q: Axios and the fetch API I'm trying to rewrite my serverless API to use the Fetch API instead of an Axios call. When using the fetch API I have the same problem. I get an error "TypeError: fetch is not a function", and I have been searching all day to no avail. The docs seem to think this API is available by default on the browser. Here is my code, which is identical to the Axios example. I'm pretty new to serverless though, so I'm open to using it in a way it's not intended, so feel free to point out anything in this code that will be considered against best practices.

```
use strict var sqlite3 = require("sqlite3"); var dbPath =
"./demo.db"; var db = new sqlite3.Database(dbPath); exports.getUsers =
(event, context, callback) => { // Construct the request fetch("", { method:
"get" }) .then((response) => response.json()) .then((data) => { return
data.slice(1,data.length-1) 6d1f23a050
